

CRITICAL ASSET MONITORING

HUMIDITY SENSOR

FEATURES

- Relative humidity and ambient temperature
- Designed for electrical critical asset environments
- 4kV surge protection
- Multi-drop bus for up to 8 series connected sensors

Preventing Flashovers

The IntelliSAW Humidity Sensor provides real-time, continuous monitoring of electrical power critical assets to identify the potential for flashover. The sensor's sintered cap, threaded body, water resistant M12 connector, and 4kV surge protection provides the level of packaging robustness required for reliable operation in harsh environments. The IntelliSAW Critical Asset Monitoring (CAM) platform units allows up to 8 humidity sensors to be bussed together for multiple location installations such as along a bus duct.

SPECIFICATIONS

HUMIDITY MEASUREMENTS

Range 0 to 100% Relative Humidity (%RH)

Resolution ± 0.1 %RH

Accuracy

 Standard Range (20 to 80%RH)
 ± 4.5 %RH

 Full Range
 ± 7.5 %RH

 Repeatability
 ± 0.2 %RH

 Long-term Drift
 < 0.5 %RH/yr</td>

AMBIENT TEMPERATURE MEASUREMENTS

Range -25°C to $+120^{\circ}\text{C}$ Resolution $\pm 0.1^{\circ}\text{C}$ Accuracy $\pm 2.5^{\circ}\text{C}$ Repeatability $\pm 0.2^{\circ}\text{C}$

PHYSICAL

Long-term Drift

Material 304 Stainless steel
Sintered Cap Material Nickel plated bronze
Weight 0.1 kg (3.5 oz)

International Protection (IEC 60529) Connector side (IP 67), Cap side (IP 50)

< 0.1°C/yr

Dielectric Strength 4 kV

Dimensions 28 W x 28 H x 80 mm D

Operating Conditions Connector side: -20°C to +70°C

MOUNTING & CONNECTORS

Body Thread M22 x 1.5 thread (nut included)

Body 24 mm hex body

Connector M12, 4-pole socket

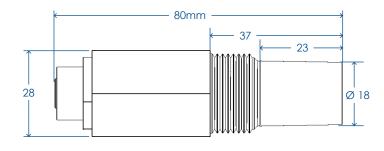

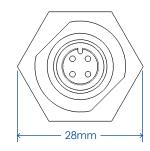

e Industr Canad

MECHANICAL

CABLES

IntelliSAW cables use UL style 2464, (80C, 300V) communication cable assembled with the required connectors to interface between a humidity sensor and an IntelliSAW CAM-4 or Reader.

MOUNTING

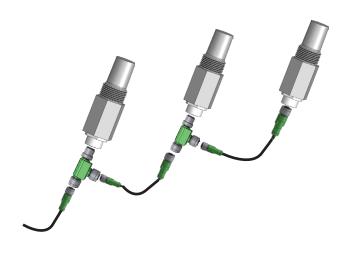

Panel Mount: The sensor body can be inserted into a 22.5mm punch out and fastened with a M22 x 1.5 thin hex nut.

Bracket Mount: The sensor can be connected to a bracket for alternative mounting methods. Bracket size: 44.5 W x 38 H x 38mm L

BUSSED SENSORS

IntelliSAW monitoring units are capable of reading up to 8 bussed humidity sensors through sensor addressing. The following is an example of 3 humidity sensors being bussed.

SAFETY

IntelliSAW systems are installed in close proximity to medium and high voltage electric power equipment. Qualified personnel need to observe industry standard safety practices that will protect the systems and operators from harm due to induced voltages. Proper antenna installation and system safety grounding is crucial to operator safety and system reliability.

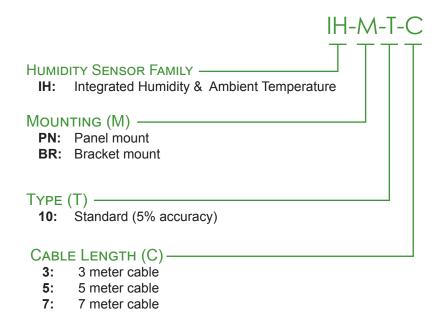

HOMOLOGATION

System integrators and installers are responsible for adhering to all regional regulations concerning the import, installation and operation of IntelliSAW Critical Asset Monitoring systems.

MODEL NUMBERS

Not all model combinations are stocked, please contact sales before ordering.
